Claim No. 7003 0500 0000 5777 3279

Dear Mr. Petersen:

CONTINUATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS – NEWHALL COUNTY WATER DISTRICT, WELL NOS. 7 & 10, 24715 & 25015 SAN FERNANDO ROAD, SANTA CLARITA, CALIFORNIA (NPDES NO. CAG994005, CI-8603)

We have completed our review of your Notice of Intent (NOI) and analytical results of representative groundwater samples in order to continue enrollment under the General NPDES Permit. Discharge of groundwater generated from potable water supply wells from the above-referenced facility is currently regulated under NPDES General Permit No. CAG994001 (Order No. 97-045) adopted by this Board on May 12, 1997.

Based on the information provided, we have determined that discharge of groundwater meets the conditions to be regulated under Order No. R4-2003-0108, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Potable Water Supply Wells to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003. Your existing enrollment under NPDES Permit No. CAG994001, Order No. 97-045, which was issued to you on June 26, 2003, is superseded by this new permit. Your coverage under Order No. 97-045 will be terminated in a separate letter.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. R4-2003-0108 and Monitoring and Reporting Program No. CI-8603. Since the groundwater analytical data provided meets the screening criteria, full enrollment under this general permit is authorized and Section E.2. will not be applicable to your discharge. However, the discharge limitations in Part E.1. of Order No. R4-2003-0108 are applicable to your discharge. The groundwater discharge flows into Newhall Creek, thence to the Santa Clara River between Bouquet Canyon Road Bridge and West Pier Highway 99. Therefore, the discharge limits in Attachment B.3.c. of Order No. R4-2003-0108 are applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8603 and NPDES No. CAG994005", which will assure that the reports are directed to the

appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending a copy of Order No. R4-2003-0108 only to the applicant. For those on the mailing list, please refer to the Board Order sent to you previously or download a copy of the Order from our website at http://www.swrcb.ca.gov/rwqcb4/html/permits/general_permits.html.

If you have any questions, please contact Raul Medina at (213) 620-2160.

Sincerely,

Dennis A. Dickerson
Executive Officer
